

The interface features a central workspace with several coin images: two pennies and one nickel on the left; a dime in the center; four pennies on the right; and one nickel and one dime on the far right. Below the workspace are four buttons: '10 + 10', '20 cents', '5+5+10', and '5+5+5+5'. The top of the interface includes an 'Edit' button, 'Check', 'Reset', and 'Solve' buttons, and a question mark icon in the top right corner. There are also empty rounded rectangular boxes above and below the coin images.
